# INVITATION: Fundamentals of Qualitative Research Design, Methods and Data Analysis using Freeware - November 22 to 25, 2022 (P3,500.00)

1 message

Data Science and Research Webinars (STRATOne) <datascience3@strat1ph.com> Wed, Oct 12, 2022 at 6:38 AM  
To: region10 <region10@deped.gov.ph>

## Fundamentals of Qualitative Research Design, Methods and Data Analysis using Freeware - November 22 to 25, 2022 via ZOOM

Researchers face obstacles when conducting qualitative research, including incompatibility between the study question and methodology, insufficient methodological understanding, and neglect of the philosophical foundations of qualitative methodology. Further, many researchers in the public, private and academic sector lacks a fundamental understanding of qualitative methods, design, and analysis.

*Qualitative research is critical in research because it answers "how" and "why" research questions and allows for a better knowledge of experiences, events, and context. Qualitative research allows us to explore questions about human experience that are difficult to quantify. Government, academe, and even the private sector must dig deeper in order to understand its stakeholders.*

The course will follow a combined lecture and hands-on workshop in which participants will receive guidance on conducting qualitative data analysis and peer feedback on their own qualitative data analysis efforts. On the last or third day of the workshop, participants will learn how to use **Orange (Data science freeware)** to create a word cloud, sentiment analysis, and text mining.

### Objectives:

- Learn about the nature and application of qualitative research in social and organizational research.
- Learn to conceptualize qualitative research and formulate problem statements and research questions.
- Learn how to design a qualitative research study.
- Learn about qualitative data collection procedures—observation, interviews, focus group interviews, and collection and use of documents and archival data.
- Learn the power of **Orange for Data Science (FREEWARE)** on performing text mining, word cloud, and sentiment analysis.

**STRATONE will introduce Orange for Data Science** in this workshop. *Aside from the conventional method of analyzing qualitative data, participants will learn to create WORD CLOUD, SENTIMENT ANALYSIS and TEXT MINING using ORANGE for Data Science(a freeware).*

**Note:** To access the course outline, description, and program of activities, you may reply to this email.

The registration fee of **PHP3500.00** includes 12% VAT, digital handouts, datasets, installer of the software, digital certificates (of participation, completion, and attendance), recording of the webinar, and the learning experience. OFFICIAL RECEIPTS will be provided upon payment. STRATONE is a **VAT company**.

START One has been operating for a year now, catering to the market research and training requirements of BPOs, various government agencies, and academic institutions here in the country. The STRAT One (Strategic One Business Management Consultancy Firm) is an emerging business that provides world-class webinars, training, seminar, and conferences at an affordable price for the market. We believe that learning management, marketing, business strategy, data science, and research should be reasonable (the Philippines) to emerge as a leading business destination in the ASEAN. Moreover, STRAT One aims to democratize analytics here in the Philippines.
