A Guide to Giving Constructive Feedback on Presentations

- Explicitly identify and positively reinforce what was done well by the presenter.
- Be helpful and be careful not to show how perceptive and superior you are; always be on the presenter's side.
- Give specific and clear feedback, not general or vague.
- Prioritize your feedback – focus on the most important areas you have observed in the presentation.
- Frame your feedback in terms of the presenter's sharing; don't explain what you have done in a similar situation in your area.
- Offer feedback as a personal perception, not as "the truth."
- Avoid using words like "but", "however", and "no offense." Any of these washes away any goodwill you created by acknowledging the goodness of what the presenter did in his/her school. These words might also raise defensive walls before the person has even had a chance to listen to what you are about to say.

8. End up a goal to provide additional information and build on what they have already achieved and offer constructive feedback to the presenter for continuous improvement.
